REFER TO DOS

Dear Mr. Hoover:

Thank you for your letter of December 1, 1971, proposing that the FBI conduct investigations of

25x1

It is in the interest of U.S. national security that the proposed investigative coverage be maintained, with a view to meeting the objectives referred to in the second paragraph of your letter. I would like to be kept informed as to significant developments.

In the event that confrontation, arrest or prosecution should be contemplated with respect to the subjects of these investigations, it is requested that I be notified prior to the taking of any such action.

I appreciate very much your continued support in matters of national security concern.

Best regards,

  
Henry A. Kissinger
